

EN GASTROENTERIC
FIBER BALANCE™

CANINE FORMULA | FORMULE CANINE | FÓRMULA CANINA

The Power to Nutritionally Manage Your Dog with

Fiber-Responsive Colitis and Diabetes Mellitus

Fiber-responsive conditions like colitis and diabetes mellitus can be uncomfortable for your pet—and for you. But with a diet containing an optimal fiber level, nutritional management can help. Purina® Pro Plan® Veterinary Diets EN Gastroenteric Fiber Balance™ Canine Formula contains a blend of soluble and insoluble fiber chosen by nutrition experts that helps normalize intestinal transit time. Insoluble fiber also helps promote greater water absorption. And for dogs with diabetes mellitus, this diet also contains complex carbohydrates to help reduce fluctuations in blood glucose.

Advanced Nutrition

Optimal level of fiber to help promote intestinal motility

Blend of soluble and insoluble fiber to help support GI health

Contains the prebiotic aleurone, soluble fiber that helps nourish beneficial microflora to promote a healthy GI tract

EN Gastroenteric Fiber Balance™ can be used in the nutritional management of dogs with:

- Fiber responsive colitis
- Large bowel diarrhea
- Constipation
- Diabetes mellitus

Our commitment to you and your pets

Purina® Pro Plan® Veterinary Diets is committed to helping you and your veterinarian make a true difference in your pet's life. Our diets are backed by extensive testing and scientifically formulated to help nutritionally manage dogs and cats with certain medical conditions.

The science behind our therapeutic diets represents a collaboration between Purina nutritionists, researchers and veterinarians, resulting in proven nutritional breakthroughs and great-tasting formulas produced with high safety standards.

Ask your veterinarian about EN Gastroenteric Fiber Balance™ today. For your pet's health, please see your veterinarian regularly.

Refer to the backside of your product package for feeding instructions.
